

Job description

A motorcycle mechanic services and maintains, repairs and overhauls motorcycle components including engines, brakes, fuel systems, manual, steering and suspension, drivelines and electrical systems. To do this, mechanics rely on a wide range of tools, including hand and power tools, precision measuring tools and equipment, together with diagnostic and electrical measuring equipment. Motorcycle mechanics are usually employed by dealerships, automotive service and repair workshops. These work environments can range from small workshops which undertake a variety of repair jobs to larger shops that specialise in a particular make of motorcycles.

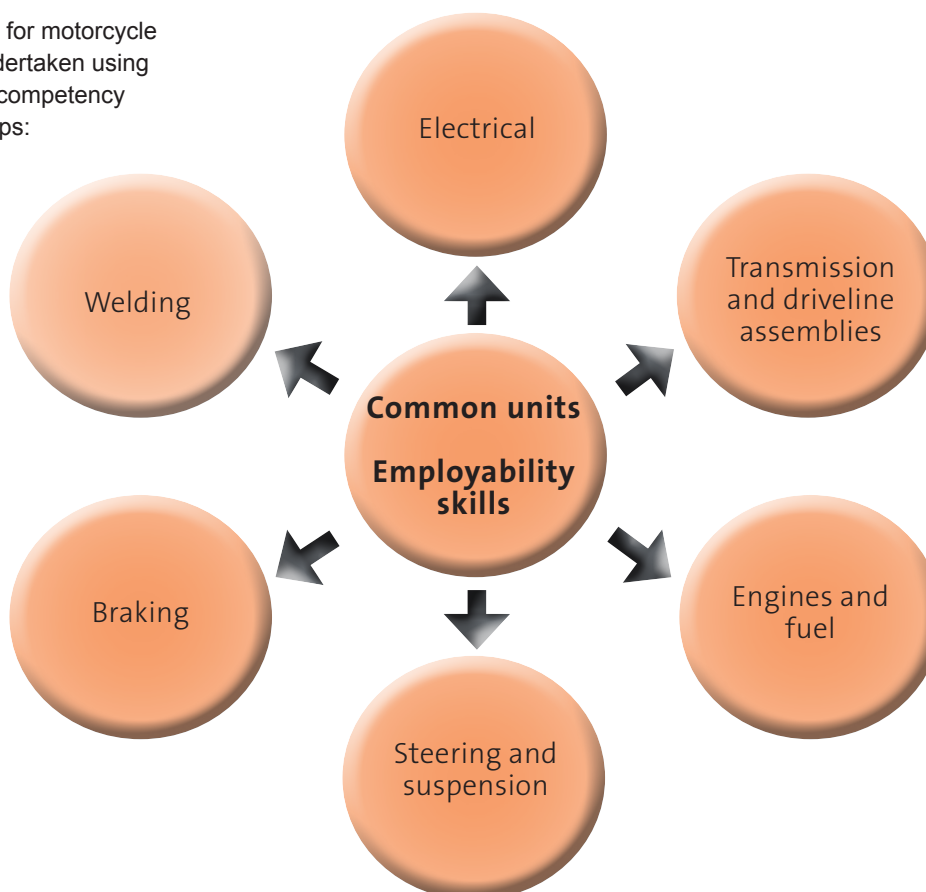

Note: This trade assessment is for generic motor mechanics dealing with motorcycles. It does not extend to light vehicle, heavy vehicle road transport, mobile equipment mechanic or speciality areas such as automotive air-conditioning mechanic, brake mechanic, diesel motor mechanic or outboard motor mechanic.

Competency assessment

VETASSESS uses competency groups for assessment. These groups consist of units of competency for the Certificate III in Automotive Mechanical Technology qualification (AUR30405). They represent groups of tasks, skills and knowledge that are used to assess an applicant's competence in an occupation and are from the Automotive Retail, Service & Repair Training Package (AUR05).

The minimum requirement for achievement of the Australian qualification is to demonstrate competence (employment and training evidence) in all of the units of competency. Please read the [Portfolio Builder](#) document for more information about how to complete a competency assessment for an Australian qualification.

The assessment for motorcycle mechanic is undertaken using the following competency groups:

Common units

Units of competency covering common skills and knowledge will be assessed with each of the competency groups. These common units relate to the workplace occupational health and safety requirements, work processes and procedures, automotive industry standards and requirements to work as a motorcycle mechanic in Australia.

Employability skills

The assessment includes the following employability skills: teamwork; communication; problem solving; planning and organising; learning; technology; self-management; initiative and enterprise. Competency units contain employability skills that will be assessed with each competency group.

Competency groups

The following is a breakdown of the competency groups shown in the diagram on page 1.

Common units

The following units of competency are common in all groups for assessment purposes.

AURC270103A	Apply safe working practices
AURT271781A	Implement and monitor environmental regulations in the automotive mechanical industry
AURT270278A	Use and maintain workplace tools and equipment
AURT225667A	Use and maintain measuring equipment
AURT200108A	Carry out service operations
AURT366108A	Carry out diagnostic procedures

Note: The tasks, skills, knowledge and employability skills required for the common units are assessed with the following competency groups.

Electrical

Be able to service, diagnose and repair motorcycle electrical systems.

AURE218676A	Test, service and charge batteries
AURE218708A	Carry out repairs to a single electrical circuit
AURE320666A	Repair ignition systems
AURE321171A	Service and repair electronic spark ignition engine management systems
AURE319166A	Repair charging systems
AURE319266A	Repair starting systems

Transmission and driveline assemblies

Be able to service, diagnose and repair motorcycle transmissions, drivelines and sub assemblies.

AURT306170A	Inspect, service and/or repair clutch assemblies and associated operating system components
AURT206670A	Inspect and service transmissions (manual)
AURT306666A	Repair transmissions (manual)
AURT212670A	Service final drive assemblies
AURT213170A	Service final drive (driveline)
AURT312666A	Repair final drive assemblies
AURT313166A	Repair final drive (driveline)

Engines and fuel

Be able to service, diagnose and repair motorcycle engines, associated components and automotive fuel systems.

AURT201170A	Inspect and service engines
AURT202170A	Inspect and service cooling systems
AURT301166A	Repair engines and associated engine components
AURT202166A	Repair cooling systems
AURT203170A	Service petrol fuel systems
AURT303166B	Repair petrol fuel systems
AURT304666A	Repair and replace emission control systems
AURT204670A	Inspect and service emission control systems

Steering and suspension

Be able to service, diagnose and repair motorcycle steering and suspension systems.

AURTM315166A	Repair steering systems (motorcycle)
AURTM316166A	Repair suspension systems (motorcycle)
AURV328166A	Repair and align motorcycle frames
AURT217665A	Remove, fit and inspect wheel assemblies

Braking

Be able to service, diagnose and repair motorcycle braking systems.

AURT210170A	Inspect and service braking systems
AURT310166A	Repair hydraulic braking systems

Welding

Be able to operate welding equipment for motorcycle repair.

AURV223608A	Carry out oxy acetylene welding, thermal cutting and thermal heating procedures
AURV281208A	Carry out brazing procedures
AURV281308A	Carry out gas metal arc (MIG) welding procedures

Assessment outcome

If you **successfully** complete the assessment process you will receive the following:

- an **Australian Certificate III** qualification that lists the units of competency you successfully achieved.

If you are **unsuccessful** in the assessment process you will be issued:

- a **Statement of Attainment** that lists units of competency you have successfully achieved and those that were not achieved.

Licensing and industry information

A licence, registration or certification may be required for this occupation.

For further information regarding any licensing requirements refer to:

- Department of Immigration and Citizenship (DIAC) - Australian Skills Recognition Information (ASRI): www.immi.gov.au/asri
- Mutual recognition for occupational licences in Australia:
www.licencerecognition.gov.au

Additional industry information that may assist you can be found at:
