VETASSESS

Information sheet

Environmental Consultant

ANZSCO: 234312

Group A

About this document

- The following Information Sheet is for your reference only and should be used as a guide to assist with your Skills Assessment application to VETASSESS. This information is subject to change.
- Please note that a Skills Assessment of the qualification involves assessment of both the qualification level and content. Qualifications are assessed according to the guidelines published by the Australian Government Department of Education.
- The employment assessment involves determining the skill level and relevance of the tasks undertaken.
- Integrity checks may be conducted to verify the qualification and employment claims made in an application.

Job description

Environmental Consultant analyses and advises on policies guiding the design, implementation and modification of government or commercial environmental operations and programs.

Environmental Consultant is a VETASSESS Group A Occupation

This occupation requires a qualification assessed as comparable to the educational level of an Australian Qualifications Framework (AQF) Bachelor degree or higher, in a field highly relevant to the nominated occupation.

GROUP A	Criteria for a suitable Skills Assessment		
	Comparable Bachelor degree AQF level	With highly relevant major field of study	Relevant employment duration
1	 +	 +	
Pre-qualification methodology does not apply to Group A occupations			

The information below describes the available pathways for a Skills Assessment under**Group A**. Please note that in order to achieve a suitable Skills Assessment Outcome, a suitable assessment for both qualifications and employment is required.

Pathway 1

This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree and in a field highly relevant to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **one** year of post-qualification employment at an appropriate skill level, undertaken in the last five years,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Qualification

Highly relevant fields of study include:

- Environmental Science
- Environmental Engineering
- Maritime and Coastal Engineering
- Ecology Conservation Science
- Climate Science
- Environmental Policy & Management

Employment Criteria

An Environmental Consultant works within a larger consultancy business that may include environmental consultancy as one of its fields of endeavour. They consult for mining, government, oil and gas, manufacturing, construction, logistics etc.

Environmental Science is multidisciplinary. They may undertake the following responsibilities:

- carrying out environmental impact assessments for a wide range of development projects
- proposing solutions to address negative environmental impact
- studying and analysing pollution, atmospheric conditions, demographic characteristics, ecology, mineral, soil and water samples

It is essential for applicants to meet the following employment criteria:

- at least one year of post-qualification employment at an appropriate skill level,
- undertaken in the last five years,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Please note in order to achieve a successful Skills Assessment Outcome, a positive assessment for both qualifications and employment is required.
