### Recruitment Consultant is a VETASSESS Group B occupation

This occupation requires a qualification assessed as comparable to the educational level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree, in a field highly relevant to the nominated occupation. In addition to this, applicants must have undertaken at least one year of post-qualification employment at an appropriate skill level in the last five years which is highly relevant to the nominated occupation. If employment is not postqualification, then five additional years of highly relevant employment are required.

If the degree is not in a highly relevant field, three years of employment at an appropriate skill level completed in the last five years in a field which is highly relevant to the nominated occupation is required. This is reduced to two years if there is an additional qualification at least at AQF Diploma level in a highly relevant field. If employment is not post-qualification, then five additional years of relevant employment are required. This is in addition to one year of highly relevant employment within the past five years.

A positive assessment of both qualifications and employment is required for a positive Skills Assessment Outcome.

This should include the company letterhead, an applicant's job position and those of her/his superiors and subordinates, and should also show each of the departments within the organisation.

Applicants may also provide evidence of the following certification:

AHRI (Australia) https://www.ahri.com.au/hr-certification/
