Illustrator is a VETASSESS Group B Occupation

This occupation requires a qualification assessed as comparable to the educational level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree, in a field highly relevant to the nominated occupation. In addition to this, applicants must have undertaken at least one year of post-qualification employment at an appropriate skill level in the last five years which is highly relevant to the nominated occupation. If employment is not post-qualification, then five additional years of highly relevant employment are required.

If the degree is not in a highly relevant field, three years of employment at an appropriate skill level completed in the last five years in a field which is highly relevant to the nominated occupation is required. This is reduced to two years if there is an additional qualification at least at AQF Diploma level in a highly relevant field.

If employment is not post-qualification, then five additional years of relevant employment are required. This is in addition to one year of highly relevant employment within the past five years.

Please note, a portfolio of completed work must be submitted for assessment if nominating this occupation.

A positive assessment of both qualifications and employment is required for a positive Skills Assessment Outcome.

Description of Pathways

The information below describes the available pathways for a Skills Assessment under **Group B**. Please note that in order to achieve a suitable Skills Assessment Outcome, a positive assessment for both qualifications and employment is required.

Pathway 1

This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree and in a field highly relevant to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **one** year of post-qualification employment at an appropriate skill level, undertaken in the last five years,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Pathway 2

This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree and in a field not highly relevant to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

An additional qualification in a highly relevant field of study at a minimum AQF Diploma level is required. Additional qualifications in a highly relevant field of study include those comparable to the AQF Diploma or AQF Advanced Diploma or AQF Associate Degree or AQF Graduate Diploma.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **two** years of post-qualification employment at an appropriate skill level, undertaken in the last five years,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

For example, an applicant for the occupation Quality Assurance Manager completed a non-relevant AQF Bachelor qualification in April 2024 and later completed an AQF Diploma in Quality Management in May 2026. The applicant commenced employment with the organisation in May 2024 and remains employed there.

Under Pathway 2, the applicant satisfies the minimum educational requirement for a Group B occupation through the AQF Bachelor qualification. Accordingly, employment is counted from the completion date of the Bachelor qualification, meaning employment from May 2024 onwards may be considered toward both the required Qualifying Period (QP) and any remaining eligible period for the points test.

As the later Diploma qualification is highly relevant to the occupation, the applicant may access the reduced employment requirement applicable under Pathway 2. In this case, only two years of QP are required, and that employment may be counted from the post-Bachelor period rather than from the Diploma qualification completion date.

Pathway 3

This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree and in a field not highly relevant to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **three** years of post-qualification employment at an appropriate skill level, undertaken in the last five years,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Pathway 4

This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree with or without a highly relevant major field of study to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **six** years of employment at an appropriate skill level that includes at least **one** year of highly relevant employment within the last five years before applying,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Qualification

Note: Qualifications in the various Design disciplines may be considered on a case-bycase basis if the study program consists of subjects in drawing or illustration and design; and the subsequent employment is highly relevant. For example, qualifications in Architecture is relevant to employment of an Architectural Illustrator.

Highly relevant major fields of study include:

- Illustration
- Visual Art / Visual Communication
- Graphic / Multimedia Design
- Fine Art

Employment Tasks

Tasks include:

- Examines assignment brief and related material, and prepares layouts and sketches of proposed illustrations.
- Determines style, technique and medium to produce the desired effects and conform with reproduction requirements.
- Conceives and renders illustrations and details from models, sketches or imagination.
- Uses pens, ink, charcoal, crayons, paint and other materials to create drawings and illustrations.
- Discusses and amends illustrations with clients and production team at various stages of completion.
- Uses computers to develop and enhance illustrations.
- Illustrates children's books, scientific work, technical manuals, reference books and other publications.
- May specialize in product packaging, corporate, medical or architectural illustration.
- May prepare series of drawings to illustrate an animated sequence in a television or film production.

- Researches the topic by looking at photographs, artworks, advertisements and books, and by observing people, animals and plants.
- Creates and manipulates models using clay and other materials or 2D and 3D computer graphics to create an animated sequence.
