## Employment information

An Insurance Broker is a professional adviser with knowledge of insurance and risk management. Brokers work on behalf of their clients, not for insurance companies, and are generally required to provide professional advice in their clients' best interest. They may specialise in one specific type of insurance or industry, or they may deal with many different types. Some Insurance Brokers may be self-employed.

Employment as an Insurance Agent will not be considered as highly relevant, as agents representing a particular company only provide advice on that company's insurance products. Insurance Brokers operate independently to arrange insurance from a range of companies.
