This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree and in a field not highly relevant to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **three** years of post-qualification employment at an appropriate skill level, undertaken in the last five years,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Pathway 4

This pathway requires a qualification assessed as comparable to the education level of an Australian Qualifications Framework (AQF) Bachelor degree or higher degree with or without a highly relevant major field of study to the nominated occupation.

Bachelor degree or higher degree includes AQF Master Degree or AQF Doctoral Degree.

In addition, it is essential for applicants to meet the following employment criteria:

- at least **six** years of employment at an appropriate skill level that includes at least **one** year of highly relevant employment within the last five years before applying,
- working 20 hours or more per week, and
- highly relevant to the nominated occupation.

Qualification

Major fields of study which match the employment context but do not contain any specific subjects in QA, may be accepted provided that the employment is highly relevant and assessed positively.

*This includes qualifications assessed at AQF Bachelor, Master and Doctoral level

Highly relevant major fields of study include:

- Quality Systems
- Quality Management

Employment

Highly relevant tasks include:

- Planning, coordinating and participating in system reviews and quality audits, and assisting staff in identifying potential improvements to systems, processes and work flows.
- Guiding organisations through the deployment of quality systems and certification and/or accreditation processes.
- Assisting and encouraging the development of objectives, strategies and plans aimed at achieving customer satisfaction and the efficient use of an organisation's resources.
- Assisting in the identification of formal standards and regulatory codes appropriate to the organisation's needs.
- Assisting with the documentation of processes and operating procedures.
- Liaising with suppliers within manufacturing environments to assist them in supplying goods to particular specifications.
- Liaising with customers to monitor perceptions regarding the organisation's quality and timeliness.
- Assisting in the implementation of statistical methodologies and quality tools to monitor and control quality.
- Providing input into reports on the effectiveness and suitability of the management system.
- Advising on and may deliver training relating to quality programs and objectives.
- Assist in the identification of risks and opportunities
- Assist in the establishment and management of contractual / regulatory compliance systems

Quality Assurance Managers help organisations develop and maintain quality systems to ensure they achieve their strategic quality objectives.

Employment information

Quality Assurance Managers help organisations develop and maintain quality systems to ensure organisations achieve their strategic quality objectives. They hold a managerial role, overseeing the quality assurance department with tasks covering an organisational-wide scope.

Roles that are not considered to be at the managerial level or hold significant authority over the development of quality systems and standards would not be considered at the required level.
