## Employment information

Account Managers identify opportunities to sell ICT products and services within designated accounts and maintain retention rates. The ICT products sold are typically targeted at industrial, business, professional and other organisations and would normally be expected to constitute business solutions rather than be off-the-shelf products. The role requires in-depth, specialised knowledge in ICT to assess the needs of client organisations, explain the goods and services in detail, and engage in appropriate reporting and business planning.

ICT Sales Assistants, who sell computing and telecommunications-related goods and services in retail and wholesale establishments, are elsewhere classified in ANZSCO at a lower skill level than ICT Sales Professionals.
